AgriFood Ingredients B.V. is an international trading and distribution company working with organic and non-organic ingredients for the food industry, acting as a principle. Our ingredients are plant-based.

We are located in the middle of the Netherlands, not far from the port of Rotterdam, the largest port in Europe, and near Amsterdam Airport. Our food ingredients are sourced from all over the world.

AgriFood Ingredients B.V. offers custom-made solutions to the food industry in every way. We operate from our own warehouse and offer in-house X-RAY processing to provide the clients' best possible solution for their needs.

VISION:

"Our vision is to be a leading and highly trusted partner for the food industry, delivering a diverse range of high-quality, fair priced ingredients through a reliable, fast, and efficient distribution network.

With our specialized knowledge, strong global supplier network, and service-driven approach, we strive to set the standard for excellence in quality, pricing, and reliability. "

COMPANY PROFILE

With more than 30 years of experience and great market insight, we are able to advise our clients to make the right decision for their organization and deliver the highest quality products, at the best possible price, with the highest possible level of service.

SERVICE

Service is not just part of the job, but an attitude which our organization relies upon. We believe in long-term partnerships, based on a customer-oriented focus.

- Custom-made solutions for individual client
- latest technology X-ray cleaning possible
- High and consistent quality of ingredients
- Strict measures in quality control, certified food safety standards.
- Flexibility in warehousing, delivery and transportation.

CLIENTS

AgriFood Ingredients B.V. specializes in bringing organic and non-organic ingredients from strictly selected producers all over the world. Our clients are international and active in distribution, packing & canning industry, food processing industry, meat replacement and plant-based products. Because of AgriFood Ingredients B.V.'s central place in the supply chain, we keep short communication lines and act quickly to changing markets.

WAREHOUSE

We keep over 7.000MT ready stocks that we can supply within 24 hours to our customers.

QUALITY ASSURANCE

It is our priority that our products reach our customers in the condition agreed. A clear product specification is the basis for this, which is agreed upon in dialogue with our customers. Through our BRC quality system we control the supply chain. AgriFood Ingredients B.V. only works with suppliers that comply with EU legislation according to food law, processing, packaging and labelling. We have the possibility to process in our facility by X-RAY to bring the ingredients to the highest standard of purity 99,99%.

AgriFood Ingredients B.V. complies with the highest European standards. Our food safety system has been certified for :
